

EXECUTIVE SUMMARY OF RECOMMENDED 2011 BUDGET

At the various tabs in this notebook are summaries of the many funds that the County maintains. There are numerous funds that are separate from the General Fund because of requirements of law or accounting principles. In some cases, such funds require appropriation from the General Fund.

The proposed General Fund Budget is a balanced budget. There is no millage rate increase scheduled in FY 2011. The millage rate was reduced by the State of Georgia required rollbacks. The Fire District millage rate remains the same, and the Fire Bond District millage rate actually decreased due to the required Debt Service schedule. The Board of Commissioners chose not to increase the millage rate beyond the State rollback rate, in light of current economic conditions.

General Fund Revenue is budgeted at \$59,454,800 for FY 2011. This is an increase of 0.56% over the previous year's budget or essentially flat year over year, as some of the increase is in restricted general fund revenues not available for general county operations. Some of the major highlights include a reduction of 0.35% in Property Taxes – Real & Personal, and a 10.31% reduction in Property Taxes- Auto. The reduction in Real & Personal is primarily the result of property revaluations and the latter is a result of legislation concerning valuation of Trucks and SUV's. However, due to economic conditions, revenue from late payments increases Property Taxes – Penalties and Interest by 42%, or \$300,000 over the prior year's budget. This increased the total budgeted revenue for the category for Property taxes 0.45% when compared to the prior year's budget. Local Option Sales tax is budgeted at \$13,765,000, or approximately 3% lower than the prior year's budget due to overall economic conditions and recent trends. Other revenue categories worth noting are a nearly 20% increase in Recreation Fee revenue, and an over 8% increase in Fines, Forfeitures, and Fees revenue year over year.

General Fund Expenditure is budgeted at \$59,454,800 for FY 2011. The County has again taken an aggressive approach to the FY 2011 expenditures budget. Priority was given to maintaining current operations and minimum increases in staffing to help meet demands caused by growth and mandates. The proposed budget does not include a COLA increase but does include step provisions for employees. Additionally, 17 vacant positions were eliminated resulting in \$780,000 in cost savings. Healthcare costs have been increasing steadily over the past two years. Management recognizes this challenge, and has been regularly meeting with representatives of the Insurance Administrator, Providers, and Other relevant parties to address this with a comprehensive solution to lower our future costs. The FY 2011 budget includes an increase of nearly \$868,000 in healthcare expenditures, of which, \$595,000 are related to the General Fund. Road Construction budgeted for FY 2010 was \$5,000,000 as amended in the General Fund, however, of this amount \$3,200,000 will carry-over into FY 2011 as Fund Balance until the projects are completed. The FY 2011 Road Construction budget was reduced to \$2,500,000. Transfers out to Other Funds increased by nearly \$3,000,000 in FY 2011. The main reason for this was due the Library Fund being accounted for as separate fund. The appropriation to the Library Fund from the General Fund is \$1,971,582. The remainder of transfers out are approximately \$546,000 to the Solid Waste Authority Fund, \$43,000 to the Airport Authority Fund, and \$244,000 to the Development Authority Fund. Of the approximately \$1,000,000 Capital Expenditures Fund budget for FY 2011, \$274,000 in Capital Fund Balance will be used to help fund the total budgeted amount. With respect to the Fire Fund, budgeted expenditures exceed budgeted revenues by \$1,449,263, however, sufficient fund balance exists to accommodate this expenditure level. As a result of the additional personnel required to staff the new Fire Station 9, and additional equipment purchased as a result of the Fire Bonds, and maximum allowable millage rate of 2.5% for the Fire Fund District, Fire Fund Balance will need to be used to balance the budget. At some point in the future, perhaps in 2 years, additional funding sources will be needed to support this fund.

There are several items that may need further discussion if the Board wishes:

1. Personnel:

Many departments made personnel requests as shown at Tab 2. During the budget process, most requests were not supported due to revenue constraints. In addition, staff with Department Head cooperation, cut 17 previously vacant positions. Staff only supported the following requests:

- The Road Department requested an upgrade of a Traffic Control Officer Position to Road Sign Maintenance Foreman, this request was satisfied in the current fiscal year.
 - The GIS Department requested Part-time GIS analyst to be made Full-time. This request was satisfied in the current year.
 - Probate Court requested 2 part-time Clerk/Licensing/Customer Service positions. Staff supports 1 part-time clerk.
 - Magistrate Court requested to convert a vacant part time position to full time. Staff supports this request
 - The Public Defenders' office requested a Full time Admin Assistant. Staff does not support this request however staff does support \$15,600 for part time help.
 - The Library System requested a step increase for vacant positions currently being advertised. This request was satisfied in FY 2010. The Library Board of Trustees requested a Grade reclassification for the Library Director. Staff supports this request
 - Environmental Management requested a Grade reclassification for a Drainage Crew Operator. Staff supports this request.
 - A detailed listing of specific requests is shown at Tab 2.
2. Capital expenditure requests are shown at Tab 3. SPLOST is reported at Tab 10.
- Funding for the most pressing equipment needs is recommended. The most significant capital expenditures supported by staff are the purchase of an ambulance, the purchase of several vehicles requested by the Sheriff's department, necessary IT infrastructure upgrades and computer replacement, and funding for the engineering portion of Brown's Mill. It is recommended that capital be funded from current year revenues, with \$274,000 being funded from the FY 2010 Capital Fund Balance.
 - SPLOST projects supported by staff include Phase II of the Extension Office, several projects within the Recreation Department, equipment purchase/replacement, station renovation, and mobile units with CAD system for the Fire Department.
3. The Road Department originally requested \$35.6 million for road construction/reconstruction. Staff originally recommended \$4 million. However due to budget constraints, only \$2.5 million is supported at this time. Staff proposes that any increase in fund balance resulting from FY10 operations be designated for road construction/reconstruction. As previously mentioned, an estimated \$3,200,000 in General Fund Road Construction projects will carry-over into FY 2011 due to their completion dates.
4. The Airport Authority requested funding of \$42998 to cover operating expenses and \$4360 for capital expenditures. Staff supports this request.
5. GA Forestry requested an increase in appropriation to \$17,176. Staff supports this request.
6. The following appropriations were requested: Health Department - \$197,500; CAFI - \$13,500; DFACS - \$148,000; Pathways - \$33,000; and the Probation Office - \$1,200. Staff supports funding at the level requested.
7. FY 2010 was a busy year for Capital Expenditures funded by the Fire Bond Proceeds. Fire Station # 9 was completed, and Headquarters Station # 1 is well underway with expected completion date in FY 2011. All major apparatus was ordered and delivered in FY 2010 including 4 Pumper Engines and 3 Platform Trucks. All of these expenditures were delivered under budget. There will be enough funds remaining from savings to relocate Station # 6 to a more suitable location in that area. We anticipate the Communications System bond expenditures to start in early to mid FY 2011, after all contracts with the vendors and the Western Area Regional Radio System are in place. We anticipate also receiving a grant to help offset some of this expense. Management believes we are on track to avoid most, if not all, potential arbitrage issues.

In summary, this is a balanced budget recommendation. This budget recommends no COLA and minimal personnel adjustments. Additionally, this includes only necessary Capital Expenditures to maintain operational effectiveness or replace non-repairable equipment. Management believes this to be fiscally conservative budget.

The Public Hearing is to be held on September 9, 2010 at 6:00pm.
